🧠 Mood Tracking

Day	Mood

Monday 02.02.	ok
Tuesday 03.02.	ok
Wednesday 04.02.	ok
Thursday 05.02.	— (no note)
Friday 06.02.	blagi plus
Saturday 07.02.	blagi plus
Sunday 08.02.	ok

Stability Notes: 4/6 logged days at ok. Friday and Saturday went off-balance toward blagi plus — two consecutive days of destabilization worth monitoring. Returned to ok on Sunday. The pattern of back-to-back off-balance days at the end of the week is something to watch.
